Examiner's Statement of Reasons for Allowance

The claims are deemed allowable over the prior art of record for at least the following reasons:

As per independent claims 1, 11 and 21:

The prior art of record does not teach, nor fairly suggest, the use of one or more constraints specified for each of a first portion of the nodes that define a scope of the subset of items represented by each of the first portion relative to their parent node and a second portion of the nodes that specify no constraints, wherein each of the second portion establishes a logical grouping defining a scope of the subset of items represented by each of the second portion, operatively coupled as claimed.

Independent claim 1 is statutory subject matter under 35 U.S.C. § 101 in light of In re Lowry. The claimed functional descriptive material (i.e., hierarchical data structure) is stored in a database, (i.e., on a computer-readable medium) and therefore the functional descriptive material becomes structurally and functionally interrelated to the medium and provides tangible benefits. In re Lowry 32 USPQ2d 1031 (CAFC 1994).

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
